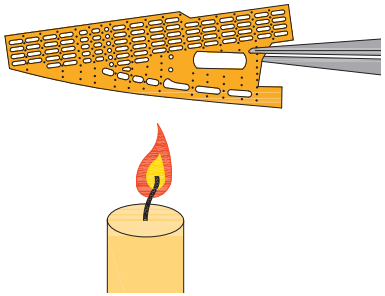
Recommendation

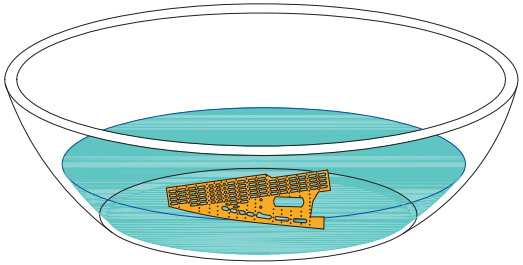
Hull -forming etchings

For a better shaping of etching, it is necessary to heat up plate and then rapidly cool down. etching is soft and well shaped according to the shape of the hull.
<u>Recommendation:</u> Try these steps to shape a different part of the sheet (the rest).

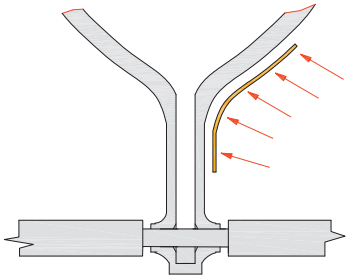
1.



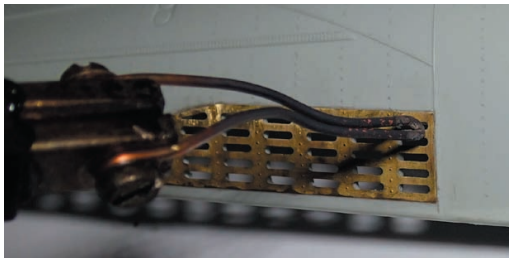
2.



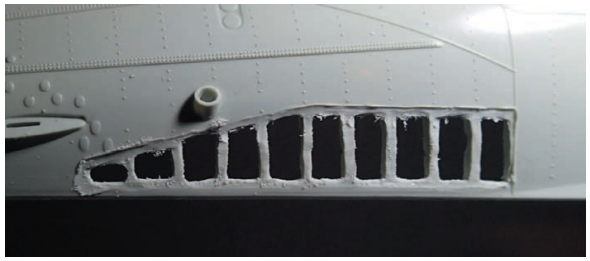
3.



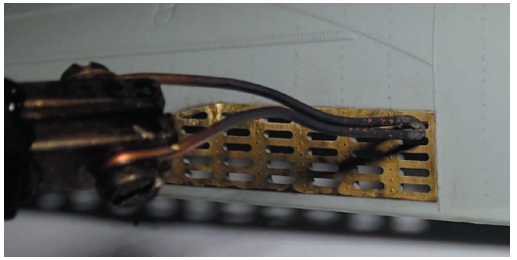
1. **fine melting to determine the outline etching (using solder)**



2. **formation of holes using a milling machine**



3. **melting etching into the hull**



4. **gluing and kiting**
